

CORPORATE SUSTAINABILITY EXPERIENCE • 2026/27

Sustainability Workshop

A two-hour sustainability workshop for corporate teams, giving participants the tools and ideas to enhance and improve their sustainability knowledge in Birmingham.

DURATION

Approximately two hours

GROUP SIZE

5–50 people

LOCATION

Flexible - online, your office or ours

BENEFITS

- **A personal starting point.** Everyone leaves with holistic sustainability knowledge that matters to them.
- **Momentum for your CSR and ESG goals.** A team on the same page that connects to your workforce, clients and sector.
- **Local knowledge.** Birmingham networks and organisations matched to your interests and goals as a team.
- **A shared experience.** Two hours that builds connection across the team while doing something useful.

Sustainability that starts where your team already cares

We are a recognised leader in Bioregional's One Planet Living® and we use this framework to show the 10 different principles of sustainability. We recognise that everyone will have different interests, even in the realm of sustainability. Therefore, we show the importance of each of the 10 aspects and what participants can do in Birmingham to act these interests and increase local impact.

One Planet Living® is relevant to everyone as it covers sustainability in every aspect from health and food to economy and energy. Individuals experience and think through what matters most to them and are then given the tools, ideas, and local, Birmingham-based events and networks that will take this newfound area of sustainability from a thought to a genuine action or lifestyle change.

Organisations can also create a plan that connects with their workforce and clients across all sectors to envision a world with greener, fairer, and healthier communities.

Why ecobirmingham

We are a Birmingham environmental charity working across transport, food, education, waste, water, arts engagement and energy. Every action we suggest is one your team can actually take, with a real local organisation, in this city.

The ten One Planet Living® principles

All ten are introduced in the session and expanded on according to what the group responds to.

Health and Happiness

Culture and Community

Sustainable Water

Travel and Transport

Zero Waste

Equity and Local Economy

Land and Nature

Local and Sustainable Food

Materials and Products

Zero Carbon Energy

WHAT YOU GET

A complete, ready-to-book experience

The base pack provides a complete, ready-to-book experience with ideas for further sustainability experiences built in, based on each participant's unique interest. All logistics, facilitation and equipment, including room hire and projector, are handled by ecobirmingham.

Every booking includes

- A pre-visit planning call with your team
- Facilitator briefing notes
- Local events and networks matched to your team's interests
- Full facilitation by our experienced staff
- Options for follow-up learning and activity
